concerto

id.concerto, an all-in-one solution  
for modern governance,

**designed with you**

### To better control information

Easily restrict access to the sensitive information contained in your agenda with document privacy management/sealing.

### To manage your internal processes

Optimize the management of your projects and increase the efficiency of your team by using our process for forwarding proposals based on a personalized workflow.

### To simplify your tasks

Take advantage of our integrated tools for online voting and electronic signatures.

### To increase productivity

Save time by using preset agenda templates and enjoy automatic generation of minutes and excerpts of resolutions.

### To stay organized

Annotate and comment your working documents in full confidentiality, regardless of the technological tool you use.

### To quickly access information

Number your resolutions and retrieve them using our advanced search engine.
